**Re: Anti-mullerian Hormone (AMH) - improved turnaround time of 4 hours**

Dear Colleague,

MedLab Pathology (MLP) is pleased to inform you that from the **2nd March 2015** all Anti-mullerian Hormone Roche Elecsys AMH Assay (**AMH**) analysis will revert from our sister Laboratory, The Doctor's Laboratory (TDL) in London to MedLab Pathology in Dublin.

MLP AMH has been verified and correlated against the TDL assay, including the evaluation of the analytical precision and accuracy. The new assay will be run with all other automated hormones, which means that results will now be available within **4 hours** of receipt of samples at MLP.

Please do not hesitate to contact me with any further queries you may have.

Kind regards,

Dr Colin Clelland, MD, FRCPath  
Medical Director
